A CARD .- In 1861 Morton discontinued the discount formerly given to the Jobbing Trade. and, ignoring the services of middle men, has sold his pens either directly to those who use them, or to such as keep them on hand for the better supply of the writing public in their own localities. There may be Jobbers who have spoken in favor of the Morton Pen since that time, but, if so, their remarks have never in a single instance reached his ear; and although they generally admit that Morton can make the best pens in the world, and used to do so, they nevertheless put forth great exertions to show that the Morton Pen has depreciated in value, is not what it formerly was and that those which they vend are equal, if not superior; now since many Retail Dealers obtain what little they know of pens, as well as the pens themselves, entirely from the Jobbers, people are

apt to be misled by their representations.

In order that the public may judge correctly, and at the same time see how much painstaking is exercised to give every one who orders, just such a pen as will exactly suit his hand Morton confidently refers to the many thousands throughout the entire country, who have received his pens through the mails during that time, and also calls particular attention to the following letter which has accompanied every pen sent.

NO. 25 MAIDEN-LANE, NEW-YORK, ?

are not exchangeable.

If returned, be particular to paste the Pen as near the lower left-hand corner of the envelope as possible, and put it up in the same manner as sent to you, to avoid its being crushed by the post-mark, or injured in the mails. The Case need not be returned unless you wish to change the size of the post-mark of the post-mark or injured in the mails. you wish to change the size or quality, in which you wish to change the size of quantum instance additional stamps must be sent.

A. MORTON.

Also, the following:

TO ALL WHO USE A PEN.

A GOOD GOLD PEN is alwas ready and reliable, and, if adapted to the hand, makes writing a pleasure rather than a task.

The beginner makes more rapid progress with a Gold Pen than with any other, because the same pressure always produces the same result; and the proficient is better satisfied with his labor, because of the greater uniformity of his writing, and the ease by which it is produced.

formity of his writing, and the ease by which it is produced.

In making new pens, the subscriber uses no solder. The gold at the point is brought to a state of fusion when the point sinks into it, and the two become as one metal, entirely impervious to the action of the acids in inks. This can be done in making new pens, because the gold is more than three times as thick as it is after the pen is rolled to the proper thinness of the finished state. When pens are repointed a solder must be used when will melt sooner than the gold of which the pen is made, other wise the points will curl into a globular form. By this process the temper is taken out of the nib, the clasticity is destroyed, and the pen subjected to the sure process of corrosion. On these accounts, and knowing from long experience that repointed pens can rarely give satisfaction, the subscriber must positively Refuse to Repoint Gold Pens.

Return the pen within ten days after its reception, if stamped "A. Morton," and not adapted to your hand, stating in what respect it might be improved, as it will be the best guide in selecting one that is. State at what angle you hold the pen on the paper, and whether squarely or leaning to the right or left. These points briefly and clearly stated, will greatly assist in making a selection to suit you.

The Grand Inquest was briefly charged by City Judge

The Grand Inquest was briefly charged by City Judge Russel, and they retired to their room. The first case called by District-Attorney Hall was that against the President, Directors, &c., of the National Park Bank, on indictment for nuisance in the erection of their banking house on Broadway. Mr. H. H. Anderson appeared for the bank, saying that they desired time before they pleaded or joined issue, as the builders are removing the obstructions to the sidewalk, and they had every disposition to comply with the law. Thereupon, by consent of the District-Attorney, the Court adjourned the case, and the Court adjourned to Monday morning next.

At Jefferson Market Police Court yesterday, Edward McGuire of No. 17 Wooster-st., appeared against Timothy J. Burke, a fellow-boarder, who, the complainant charged had attempted to shoot him. In answer to the charge the necused said that he could not recollect anything concerning the matter, and that he would never get drunk again if his Honor would let him go. The complainant did not desure to press the charge, but wanted the prisoner promising to be peaceable in future, he was allowed to depart.

THE PUBLIC HEALTH. ENCOURAGING LETTER FROM DR. HARRIS. The Registrar of Records writes an instructive and altogether satisfactory letter this week, in which

the says:

The week ending last Saturday, like the entire month of October, was remarkably favorable to life in New York and Broodyn. There were only 37 deaths in the former, and but 128 in the latter city. This mortality is equivalent to a yearly death rate of 24 in 1,000 inhabitants, if we estimate by the census of 1055. But, estimated upon the actual population, the death-rate would be correctly stated at something less than 21 in 1,000. This steady decrease of the death-rate in both cities for several successive needs is replete with instructive lessons. The atmosphere not only has been so deightfully tempered as to entire all classes of people to enjoy it and the sunlight, but it has also bess sensibly purer than usual. These cities have been much cleaner than has been previously witnessed in many years, and some chronic and rery gross missances have disappeared. And in addition to these helps to health, the present is peculiarly the season of wholescome fruits and abundant food supplies. The contagious and infectious discusses, as well as the fatal distribution of the subject of subje

NO MORE CHOLERA AT PHILADELPHIA NAVY-YARD. PHILADELPHIA, Nov. 4.—Since Tuesday last there have been no deaths from cholera on board the United States hospital ship Sassacus, lying off the Navy-Yard. The surgeons report this morning that there are but three men now under treatment for the disease, all of them being convalescent and certain of complete recovery within a couple of days. The total number of deaths from the epidemic is 30.

THE YELLOW FEVER.

New-Orleans, Nov. 4.—There were seven interments from yellow fever to-day, and it yesterday.

Monte, Ala., Nov. 4.—There were 10 yellow fever interments during the past two days. Gov. Crapo has appointed November 28 as a a day of thanksgiving in Michigan.

The funeral of the Rev. George W. Bridge, the esteemed Pastor of the Edgartown (Mass.) M. E. Church, took place on Sunday. Capt. Dan. Able's room at the Southern Hotel Walt Whitman has returned to his desk in the Attorney General's office, looking heartier, if possible, for his late leave of absence, and is said to be at work on a reply to Carlyle's "Shooting Niagara," to be published at an early day in one of the New-York monthlies.
